PROFESSIONAL SUMMARY

Full-stack Front-End Developer with a strong foundation in building production applications. Proficient in JavaScript, React-JS, and TypeScript. Skilled at delivering high-performance websites and scalable UI components with a focus on performance, accessibility, and maintainable code. Committed to leveraging technical skills and a positive attitude to drive organizational success.

PROFESSIONAL EXPERIENCE

Independent Web Developer

Fashion Design webApp – Remote/Nigeria

October 2025

- Successfully overcame a critical technical challenge by researching and implementing Formspree to handle secure and reliable form submissions for client orders.
- Developed and deployed a simple, responsive web application using React-JS/JavaScript, enabling users to view available clothing designs and book custom orders.
- Managed the full development and deployment cycle on Vercel, ensuring a seamless and accessible user experience for checking out designs and placing orders.

Independent Web Developer (Confidential Project)

September 2025 - Date

- Developed a custom web application for a private client, focusing on delivering a unique and confidential user experience.

- Implemented secure, scalable UI components using JavaScript and React-JS/TypeScript, adhering to client-specific performance requirements.
- Managed the end-to-end development cycle, from initial feature design through testing and deployment.

Front-End Developer

Nexapay

November 2025 – Date

- Developed and maintained responsive user interfaces using React.js, JavaScript, HTML, and CSS.
- Built reusable UI components and complete pages aligned with product and UX requirements.
- Integrated APIs to enable dynamic data rendering and seamless user interactions.
- Translated Figma/UX designs into clean, maintainable, and responsive front-end code.
- Optimized front-end performance and improved application stability through debugging and code enhancements.
- Collaborated with designers, backend developers, and product stakeholders to deliver features on schedule.

EDUCATION

Bachelor of Science ([B.Sc.](#)) | Landmark University-Computer Science

2025

PROJECTS

Task Management webApp | *React Js*

- Productivity app with offline access.

EXPERT-LEVEL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Python
